

Striving for excellence in quality and service.

This will be achieved by our commitment to

- Continually improve the effectiveness of the Quality Management System.
- Adhere to the company quality policies and management directives.
- Understand and meet the quality needs and expectations of all our Customers, Suppliers and Employees.
- Achieve total customer satisfaction by providing products and services which meet their requirements and specification.
- Efficient use of resources to achieve competitive pricing and value to our customers.
- Sustain organizational excellence through visionary leadership and innovation.
- Enhance the skill and competence of our employees to meet the changing requirements and expectations of our customers and business.

We shall communicate this policy to all our employees and review it periodically for its continuing suitability.
